MATH AND LOGIC

Who Won the Race?

We can sometimes use logic to stretch a little information a long way. Can these small clues tell us everything we need to know about

Series 3 of 3

THURSDAY, MARCH 23, 2023

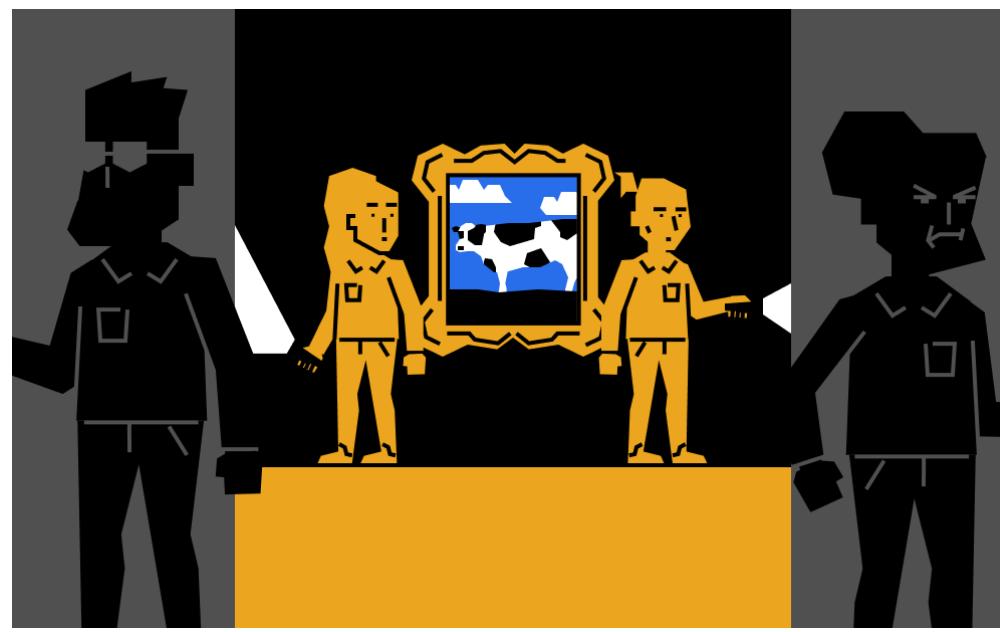

100 DAY CHALLENGE 2020

The Nine Nine Plus

There are lots of ways to add to nine, but is it possible to make it happen twice in this puzzle?

WEDNESDAY, MARCH 22, 2023

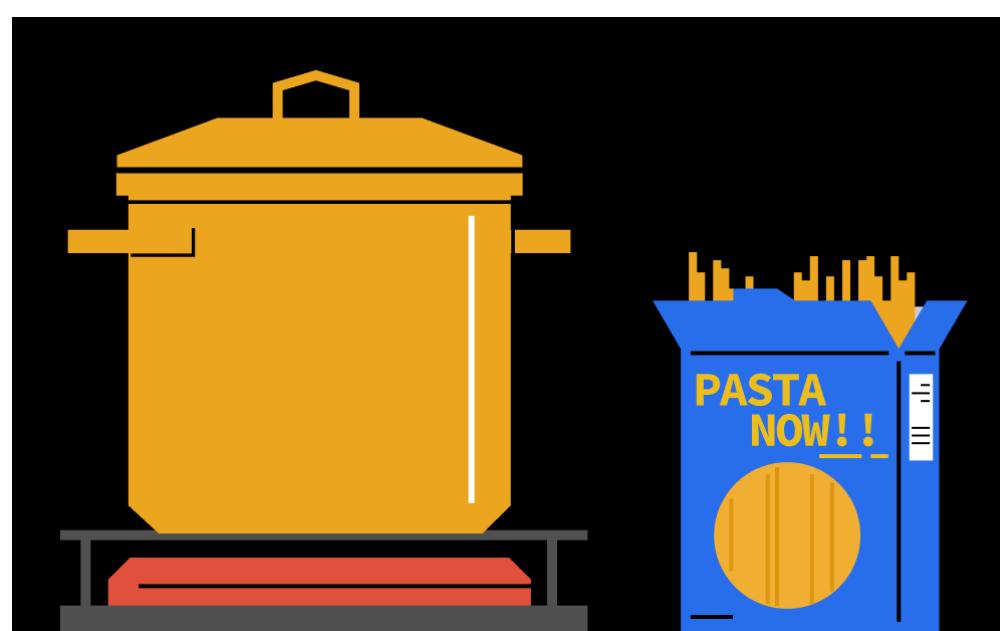

MATH AND LOGIC

How Much Can They See?

Art needs protecting and so art galleries need guards. How many does this one need?

TUESDAY, MARCH 21, 2023

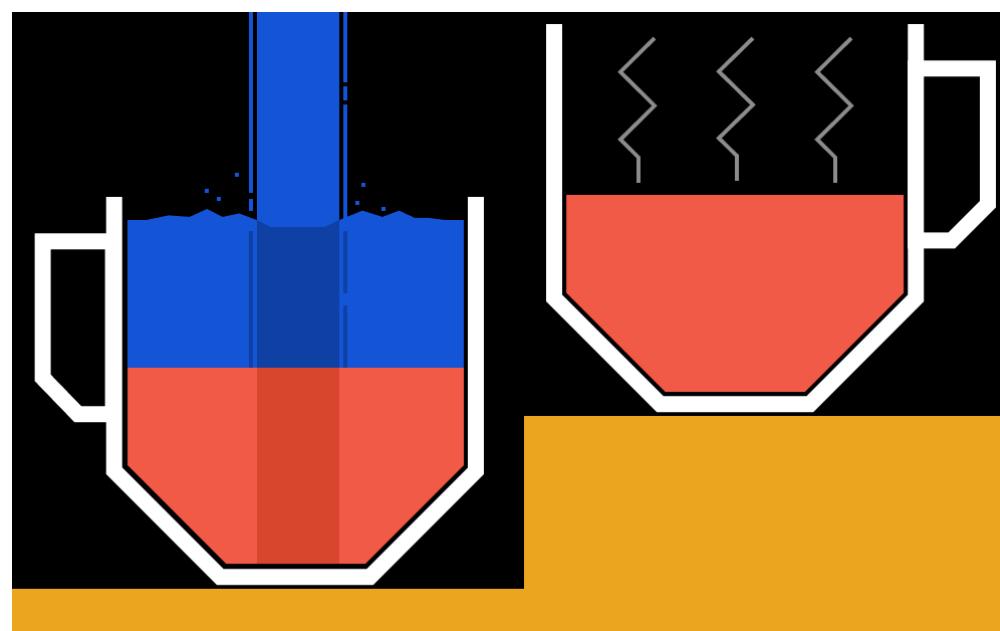

SCIENCE AND ENGINEERING

Pasta, Pronto

"A watched pot never boils" is about psychology, not physics — how can we actually get water to boil sooner?

Series 3 of 4

MONDAY, MARCH 20, 2023

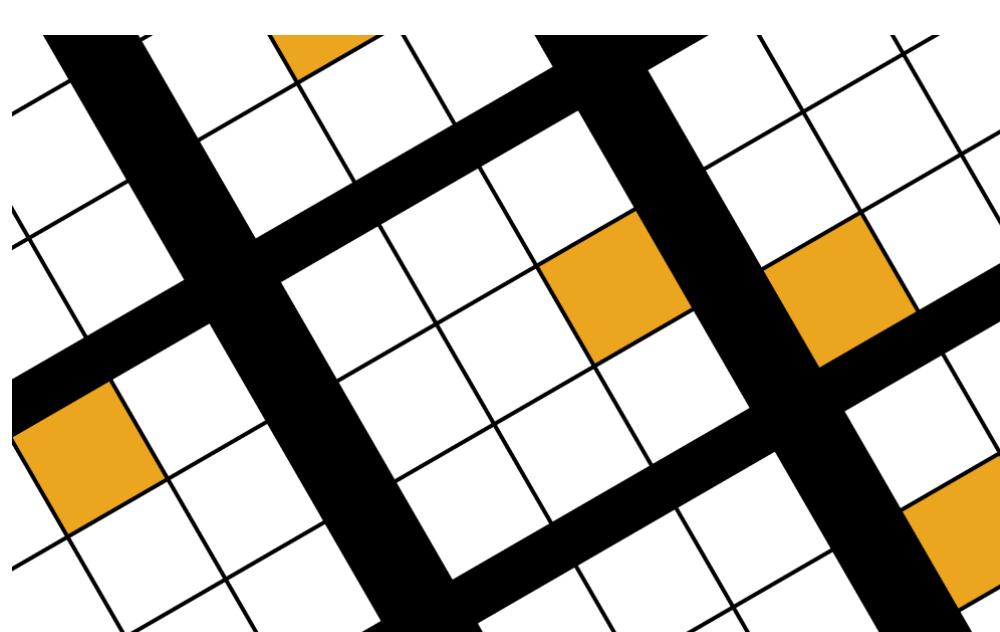

SCIENCE AND ENGINEERING

Cool, Cooler, Coolest

Adding cold water to hot tea will help to cool it down. When should we do it?

SUNDAY, MARCH 19, 2023

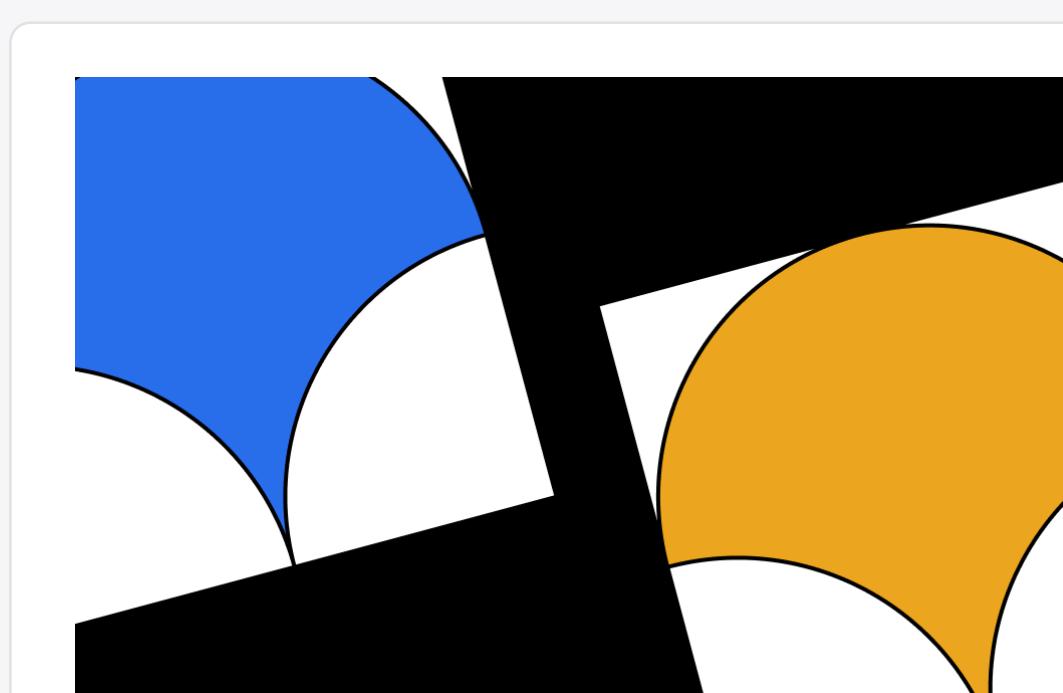

MATH AND LOGIC

Find the Pattern

Mathematics is the art of reasoning about patterns, and not all patterns are numerical. What completes this pattern?

SATURDAY, MARCH 18, 2023

100 DAY CHALLENGE 2020

Draw the Line

Adding additional lines to a diagram can turn a challenging problem into something far simpler.
